Executive Director's Note

Assalamualaikum W. B. T.

The 100 -day Malaysian Family Aspirations event was successfully launched on 9th December 2021 at the Kuala Lumpur Convention Center (KLCC) and officiated by the Prime Minister. It was a big day for us with thunderous applause as the event featured a variety of programs and activities including exhibitions and cultural performances along with exhibition booths showcasing the achievements of ministries and government agencies. Safety and health is also crucial part of Keluarga Malaysia. NIOSH together with the Ministry of Human Resources has been tasked to train and promoting occupational safety and health in the oil and gas, telecommunications, electricity, highways, and manufacturing industry sectors. Among the three programs set in the key performance indicators (KPIs), a total of 5004 participants have completed the occupational safety and health training.

The Institute was given the opportunity to showcase and promote our laboratories and services offered in various types of testing. Among the five laboratories, the Chemical Hazardous to Health Laboratory (CHL) provides services such as biological, environmental, and microbiological analysis to monitor hazardous chemical exposure to health. The lab has received the IKM Laboratory Excellence Award in December 2021 recently. Alongside the CHL, the NIOSH team also showcased of our Fall Protection Equipment Testing Laboratory (FPETL) services for body strength testing and body dimension measurements for work design adaptation. The Dust Mask Laboratory (DML) performs tests on respiratory protection equipment and also disseminates technical information on face masks. Last but not least, the Occupational Health Management Laboratory (OHL) introduced body composition testing and help validate ongoing programs such as personal training, patient care and corporate health programs. At the same time, the NIOSH team also advises on the latest information on occupational safety and health training programs. This event not only brought us together, but also created an interactive platform to share on information, resources, and feedback that benefited organizers and patrons. Well done to the NIOSH team and the joint efforts with all other government departments and agencies!

NIOSH team is wrapping up 2021 and we are preparing for an endemic shift in 2022. Happy New Year to all our readers, Stay Safe, Stay Healthy!

Wabak COVID-19 telah diisytiharkan sebagai pandemik oleh WHO pada suku pertama tahun 2020. Sehingga kini, ianya telah menjangkiti sebanyak 273.9 juta penduduk dunia dan 5.34 juta mangsa korban di seluruh dunia disebabkan oleh jangkitan COVID-19. Banyak konsep dan istilah baru yang mula dipelajari oleh masyarakat semenjak bermulanya pandemik COVID-19 ini. Pelbagai langkah kesihatan awam telah pun dijalankan untuk mengawal penularan jangkitan ini. Terkini, dunia berusaha mendapatkan imunisasi COVID-19. Setelah hampir 2 tahun dunia menghadapi pandemik ini, kini beberapa negara mula mengorak langkah untuk ke fasa endemik. Istilah ini bukanlah istilah yang baru, malah telah pun digunakan sekian lama.

Istilah seperti pandemik, endemik atau epidemik kebiasaannya digunakan untuk menerangkan keadaan penularan penyakit berjangkit, walaupun ianya boleh digunakan kepada penyakit seperti kencing manis, darah tinggi ataupun masalah kesihatan mental. Penggunaan istilah ini berdasarkan kepada bilangan kes yang dibandingkan dengan kes yang dijangka berlaku pada satu-satu masa dan sejauh mana penyakit tersebut merebak.

Apa itu epidemik?

Epidemik ialah istilah yang menerangkan kadar penyakit naik dengan cepat melebihi kadar jangkitan di dalam suatu komuniti pada suatu masa. Epidemik tidak semestinya merujuk kepada penyakit berjangkit sahaja, malah boleh digunakan kepada penyakit lain yang kadarnya banyak di dalam suatu komuniti. Antara contoh epidemik adalah seperti 'seasonal flu' ataupun COVID-19 pada ketika ianya bermula di satu kawasan sahaja sebelum ia merebak merentasi sempadan.

Apa itu pandemik?

Pandemik ialah istilah yang digunakan untuk menerangkan penularan penyakit berjangkit dengan cepat yang menular menyeberangi beberapa benua atau ke seluruh dunia. Istilah ini menerangkan kadar dan jarak tersebar penyakit dan bukan keterukan (*severity*) penyakit. Apabila epidemik tersebar secara meluas dan sebahagian besar manusia dijangkiti, ianya dikenali sebagai pandemik.

Antara ciri-ciri pandemik adalah seperti berikut:

1. Menjangkiti sebahagian besar populasi dunia
2. Kadar jangkitan adalah meluas, meliputi kawasan geografi yang besar, kebiasaannya secara global.
3. Kebiasaannya disebabkan oleh virus atau strain virus yang baru.
4. Menular dengan cepat dikalangan populasi kerana ketiadaan atau sedikit imuniti sedia ada.
5. Menyebabkan impak negatif kepada ekonomi, sosial dan kehidupan seharian, akibat daripada perlaksanaan kawalan penularan jangkitan.

Situasi pandemik ini pernah berlaku kepada penduduk dunia, dan ada yang masih lagi berlaku sehingga kini. Antara contoh pandemik di dunia:

1. **Bubonic Plague (Black Death)** – Berlaku sekitar tahun 1346 hingga 1353, melibatkan benua Eropah, Asia dan Afrika Utara dan menyebabkan kadar kematian sekitar 200 juta orang.
2. **Spanish Flu** – Berlaku sekitar tahun 1918 hingga 1920, melibatkan populasi dunia dan menyebabkan kadar kematian sekitar 100 juta orang.
3. **HIV/AIDS** - Bermula pada tahun 1981 dan masih lagi menjangkiti masyarakat seluruh dunia sehingga kini. Kematian disebabkan jangkitan ini dianggarkan sekitar 36.3 juta orang.

Apa itu endemik?

Endemik merupakan istilah yang menerangkan penyakit yang wujud secara terus menerus di dalam suatu kawasan geografi atau kawasan populasi. Keadaan penularan adalah stabil dan kadar jangkitan dalam jangkaan.

Antara contoh endemik adalah seperti penyakit Malaria di Afrika, denggi di kawasan tropika dan subtropika dan demam campak yang kebiasaannya menjangkiti kanak-kanak.

Tanggungjawab kita sebagai masyarakat

Penyakit berjangkit sentiasa berevolusi dan dinamik. Kita tidak boleh hanya menggunakan satu strategi yang sama dan tidak fleksibel dalam usaha membendung penularan jangkitan di dalam masyarakat. Kaedah kawalan kesihatan awam, imunisasi, surveilan penyakit dan rawatan terhadap penyakit berjangkit adalah antara strategi yang perlu dilakukan berdasarkan data-data terkini. Menjadikan ianya lebih rumit apabila kaedah ini perlu diseimbangkan dengan faktor ekonomi, sosial dan kebijakan masyarakat setempat. Oleh itu, adalah tanggungjawab kita sebagai masyarakat untuk bersama-sama mencegah penularan jangkitan.

NIOSH Consultancy: Towards Regionalisation

Article written by:
 Consultation, Research and Development Department (CRDD)
 National Institute of Occupational Safety and Health, Malaysia

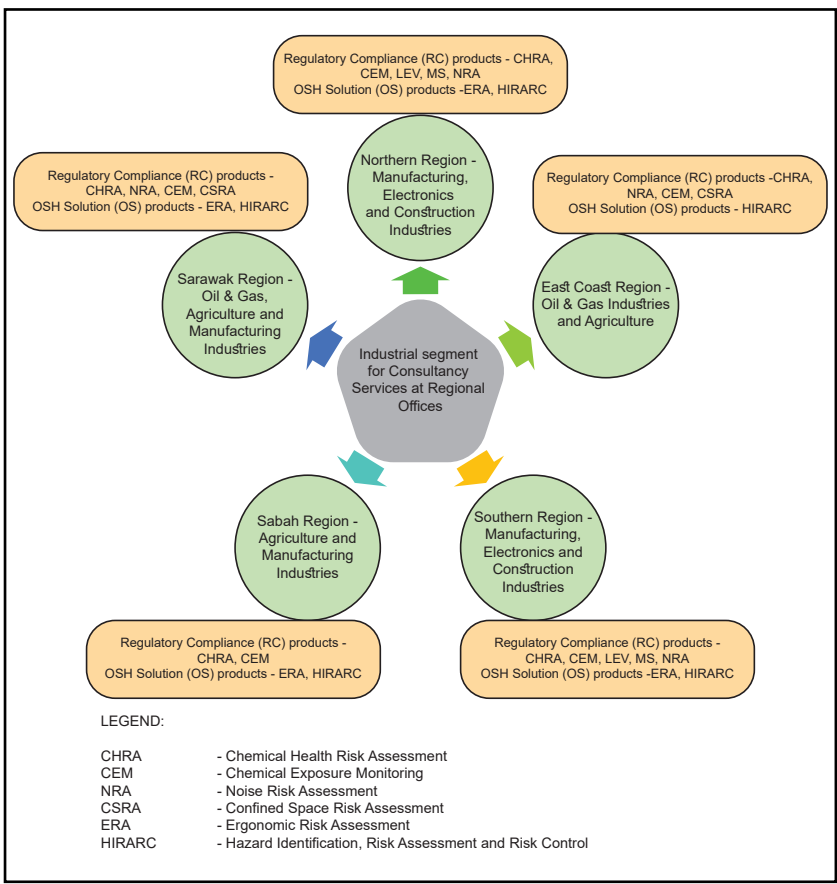

Over the 25 years of establishment, NIOSH has become a national institute in leading the nation towards a safe and healthy workplace through the four (4) core businesses; 1) training; 2) consultation; 3) research; and 4) information dissemination. NIOSH headquarter is located at Bandar Baru Bangi, Selangor and operates at 16 other locations nationwide through its regional and satellite offices.

Consultation, Research & Development Department (CRDD) is based at NIOSH headquarters and provides the industries towards Occupational Safety and Health (OSH) legal compliance and workplace improvement solutions. CRDD continuously emerges the application of OSH best practice at workplace through scientific evidence via technical assessment and evaluation of hazard control. Due to the increasing demand

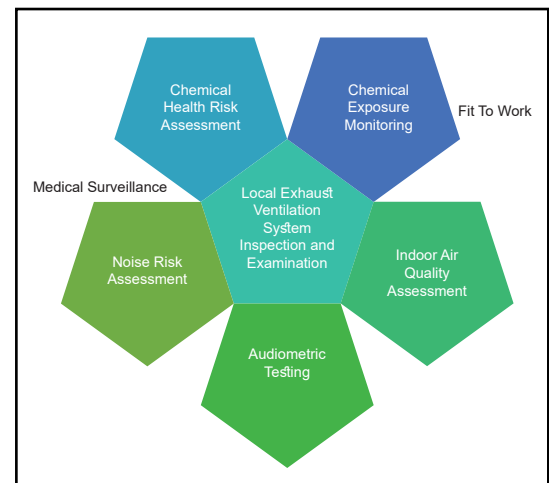

nationwide, the expansion of consultancy services is imminent. Hence, regionalization is vital to support NIOSH Business and Strategic Plan.

In early 2020, East Coast Regional Office, Kerteh, Terengganu has been the first NIOSH regional office which embarks into consultancy activities. It was spearheaded by NIOSH Technical Expert with the mission of promoting industrial hygiene and occupational health services throughout east coast. Moving forward, the technicalities in consultancies will be spread out to other regions in Senai, Johor (Southern Regional Office), Kepala Batas, Penang (Northern Regional Office), Kota Kinabalu, Sabah (Sabah Regional Office) and Kuching, Sarawak (Sarawak Regional Office).

Industrial segment for Consultancy Services at Regional Offices is shown as below:

Regulatory Compliance (RC) consultation services mark the highest demand in industries. Hence, the ideal strategy is to set the consultation approach mainly on RC scope in the initial phase. Following are the main consultation products of RC:

The expansion of NIOSH consultancy will bring out another level in creating the value of service with effective impact in nurturing OSH culture at workplace along with our mission to provide practical solutions in the field of Occupational Safety and Health for the industries.

Highlights of The Malaysian Budget 2022

Article written by:
Business and Marketing Division (BMD)

BUDGET 2022

Introduction

The **Annual Malaysian Budget 2022** was tabled in the Parliament House on the **29th October 2021** by the Hon. Minister of Finance Y.B. Senator Tengku Datuk Seri Zafrul Abdul Aziz. Generally, the Budget 2022 is viewed as an annual financial plan to support the concept of “**inclusiveness,**” under the “**Keluarga Malaysia**” simultaneously with **Wawasan Kemakmuran Bersama 2030 (WKB 2030)** ideology, being promoted by the Rt. Hon. Prime Minister of Malaysia under the **12th Malaysia Plan** tabled on the **27th of September 2021**.

Under this budget the revenue is expected to increase to **RM234 billion** in 2021.

A total of **RM233.5 billion** is allocated for **operating expenditure**, **RM75.6 billion** for **development expenditure** and **RM23 billion** allocated for the **COVID-19 Fund**.

It is estimated that the fiscal deficit for 2022 is projected to shrink to **6.0 per cent** of GDP from **6.5 per cent** in 2021.

It should be stressed that the Budget 2022 has taken serious view of the calamity caused by the pandemic stretching far beyond initial expectations, causing serious damage to the economic growth for the past two years (2020 and 2021) and stretching the financial resources of the country. In this regard, to address the declining GDP growth, Budget 2022 has the momentous task of spurring the Malaysian economy towards recovery while balancing spending against significant pressure on government revenues. With this objective and national agenda in mind, Budget 2022 has the country's largest ever allocation of **RM332.1 billion**. This Budget is described as being inclusive by covering a wide spectrum of Malaysia's population, especially those who are at the lower end of the social strata.

The Budget 2022

The Budget is focused on three main areas:

Goal #1 : Rakyat's wellbeing;

Goal #2 : Resilient businesses; and

Goal #3 : A prosperous and sustainable economy.

Strategies underscored for Goal#1:

- i) **To resuscitate the Lifestyle and Earning Power of the Rakyat;**
- ii) **To Build a “Keluarga Malaysia”;** and
- iii) **To build a conducive Lifestyle.**

Strategies lined up for Goal#2:

- i) **To enhance conducive Business Environment;**
- ii) **To spur Strategic Investment; and**

iii) **To revive specific sectors of the economy.**

Strategies to achieve Goal#3:

- i) **Agenda for sustainability;**
- ii) **To reduce Economic Disparity; and**
- iii) **To consolidate Fiscal Policies and Sustainability.**

All the nine strategies under the various focused areas are further broken down into 'initiatives' which are specific in nature referring to the activities to be conducted over the period of 2022.

Key Takeaways of Budget 2022

1. Government introduces **Bantuan Keluarga Malaysia** worth **RM8.2 billion**, to benefit **9.6 billion** recipients.
2. Under the current circumstances health is still a primary concern of the Government. **RM32.4 billion** has been allocated for the **Ministry of Health**, which is the second largest in terms of ringgit Malaysia after the Ministry of Education with **2 billion** for vaccination expenses and another **2 billion** for supplies.
3. Topping the list of agencies receiving budget allocation is the **Ministry of Education** amounting to **RM52.6 billion**.
4. In 2022, the Government under the **Jaminan Kerja Keluarga Malaysia** (JaminKerja) initiative will guarantee **600,000 job opportunities with an allocation of RM4.8 billion**. It will also, via SOCSO, continue with the hiring incentives via JaminKerja initiative, with a target of **300,000 people** and an allocation of **RM2 billion**. [Under this initiative, for employers who hire Malaysians who have not been actively employed, the Government will provide an incentive of 20% of the monthly salary for the first six months, and 30% for the next six months, subject to jobs with a salary of RM1,500 and above.]
5. Under the **Malaysia Short-term Employment Programmes** (MySTEP) initiative will be offering **80,000 contract employment** opportunities covering **50,000 jobs** within public sector and **30,000 jobs** within Government Linked Companies from January 2022.
6. **Tax deductions of RM2,000 to RM7,000 for upskilling courses**. The Government's targets **220,000 trainees** to undergo various upskilling programmes with a total allocation of **RM1.1 billion**.
7. **RM11.4 billion** allocation for **Bumiputera empowerment**.
8. **RM150.00** as early **schooling assistance** for each student; total allocation of **RM450 million** to benefit **3 million** students.
9. **RM400 million** for **Supplementary Meal Assistance Plan** (RMT) to ensure student get adequate daily nutrition.

10. Government through the Securities Commission of Malaysia, to make it compulsory for public listed companies to have at least **one female director** on their **Management Board**. In this regard, the Government has identified **252 companies** which might have to restructure their Boards.
11. **EPF** to extend reduced minimum contribution rate from **11% to 9% until June 2022**.
12. Government to extend 100% Sales Tax waiver on CKD passenger vehicles and 50% Sales Tax exemptions on CBU passenger vehicles, including MPVs and SUVs until June 30,2022.
13. **Government to allocate RM2 billion under Housing Credit Guarantee Scheme** to assist those without steady income, such as the gig economy workers, to purchase homes.
14. **Real Property Gains Tax** to be removed for house sales from **sixth year onwards**.
15. **Matching grant of RM100 million** for Bumi SMEs to explore aerospace industries.
16. **RM1.7 billion** in subsidies, incentives for **farming and fisheries** industries, including RM1.5billion in subsidies for seeds and fertilizer.
17. **Bank Negara Malaysia** to allocate **RM1 billion** towards assisting SMEs in adopting sustainable and **low carbon practices**.
18. **TVET programmes** to get a booster of **RM6.6 billion** for various initiatives. RM200million is also allocated for programmes such as the Dual Training System and Industrial Certification Programmes.
19. **Income tax exemptions** for up to RM3,000 for nursery and kindergarten fees.
20. The Government will continue with the implementation of national infrastructure development projects worth **RM3.5 billion**, including the construction of the **Pan Borneo Highway and Central Spine Road**.
21. An initial fund of **RM200 million** is allocated through the creation of the **Third Infrastructure Facilitation Fund** to further boost high-impact infrastructure development activities in collaboration with public and private sector.
22. The Government plans to extend the tax deductions for the cost of **renovation and upgrading** of premises up to **RM300,000** until December 31, 2021. {Improving IAQ should be addressed under this topic.}
23. Additional tax deduction of up to RM50,000 for companies registered under **Safe@Work** on the rental expenses of employee accommodation premises extended for another year.
24. A collective fund of **RM500 million** is allocated through the GLCs Network Initiative, **Empowering MSMEs to assist entrepreneurs** through advisory services and financial support.
25. **Government announces RM3 billion injection into pandemic-hit list companies, RM2 billion for companies with gearing issues.**

CONCLUSION

Malaysia is slowly but steadily pulling out of the pandemic. The Budget 2022 is very focused in this regard. It has covered many spheres of the economy to ensure the ringgit allocated reaches the furthest. In this regard, the Malaysian economy should achieve its rightful place by the end of 2022, provided the agencies vested with powers to pursue the appropriate path without wasting the available limited resources.

Most Influential People Of OSH Winner In Malaysia

17 Disember 2021 - Malaysian Occupational Safety and Health Practitioner's Association (MOSHPA) telah menganjurkan 17th MOSHPA OSH Excellence Award 2021 di Berjaya Times Square Hotel, Kuala Lumpur.

Tahniah diucapkan kepada NIOSH kerana telah menerima anugerah MOSHPA Award - Platinum Silver for OSH Management on Government OSH Enabler dan tahniah juga diucapkan kepada En. Khairunnizam Mustapa di atas anugerah 2021 Most Influential of OSH in Malaysia – Silver.

Anugerah ini mengiktiraf organisasi yang terpilih setelah sesi audit dijalankan ke atas organisasi, pemimpin, sistem pengurusan dan pengamal OSH di organisasi tersebut.

Misi Bantuan Bencana Banjir NIOSH

"Berat mata memandang, berat lagi bahu memikul". Itulah kata-kata yang mampu diungkap kepada mangsa banjir dikalangan kakitangan NIOSH. Mereka telah diuji dengan musibah banjir yang melanda sehingga menyebabkan berlaku kekotoran dan kerosakan harta benda. Susulan itu pihak Kelab Kebajikan dan Sukan IKKPN (KKS) dan NIOSH Emergency First Response Team (NEFT) telah menyusun bantuan dalam pelbagai bentuk termasuklah aktiviti gotong-royong membersihkan rumah kakitangan yang terlibat dan memberi sumbangan kelengkapan asas. Pihak pengurusan atasan, Tuan Haji Ayop bin Salleh, Pengarah Eksekutif NIOSH dan Puan Noorliza Idawati binti Mat Nayan, Pengurus Bahagian Sumber Manusia juga turut bersama membantu dan menyampaikan sumbangan kepada kakitangan yang ditimpa musibah. Semoga kakitangan yang terkesan dengan tragedi banjir ini diberi kesabaran, kekuatan jiwa dan dipermudahkan segala urusan.

Juruteknik maut ketika selenggara lampu limpa taman tema air

15/12/21

IPOH - Satu notis larangan tidak dikeluarkan terhadap sebuah taman tema air di sini kerana gagal menyediakan sistem kerja selamat bagi mengagihkan kemasihan seorang juruteknik Alah selepas Pengarah Jabatan Keselamatan dan Kesihatan Pekerjaan (JKKP) Perak, Supian Alias berkata, tindakan itu di ambil selepas mendapati berlaku kecacatan ketika kerja selenggara lampu limpa berhampiran satu kawasan kolam mandi di taman tema air berkenaan.

Menurutnya, dalam kejadian jam 12.45 petang hari itu, mangsa warga tempatan ber-tengah hari itu, mangsa warga tempatan ber-tengah hari itu ditemui terjerat di dalam kolam air dan dalam keadaan lemah dan tidak ber-tanya oleh rakan sekerjaanya.

"Mangsa yang bekerja selama empat ta-hun sebagai juruteknik di taman tema air tersebut disahkan meninggal dunia di Hospital Raja Permaisuri Bainun (HRPB) Ipoh pada jam 1.48 petang hari yang sama."

Susulan siasatan awal yang dijalankan JKKP telah mengemukakan arahan larangan kepada pengurusan taman tema air berkenaan untuk mengambil langkah keselamatan dan kesihatan. Pengarah Jabatan Keselamatan dan Kesihatan Pekerjaan (JKKP) Perak, Supian Alias berkata, tindakan itu di ambil selepas mendapati berlaku kecacatan ketika kerja selenggara lampu limpa berhampiran satu kawasan kolam mandi di taman tema air berkenaan.

"Mangsa yang bekerja selama empat ta-hun sebagai juruteknik di taman tema air tersebut disahkan meninggal dunia di Hospital Raja Permaisuri Bainun (HRPB) Ipoh pada jam 1.48 petang hari yang sama."

JKKP sita lokasi tiga pekerja meleur

15/12/21

IPOH - Jabatan Keselamatan dan Kesihatan Pekerjaan (JKKP) Perak menyita lokasi kawasan kejadian tiga pekerja meleur disambar api di sebuah kilang siman di Gopeng pada Khamis.

Pengarahnya, Supian Alias berkata, selepas pegawai telah ke lokasi kejadian pada Khamis bagi menyiasat kejadian tersebut.

Menurutnya, hasil siasatan awal mendapati majikan dalam proses mengeluarkan 49 tan habuk halus arang batu dari coal bin calciner.

"Ketika kejadian pekerja-pekerja tersebut sedang menjalankan kerja pembersihan habuk halus arang batu di bahagian bawah pengisar ini dengan menggunakan semburan air."

"Bagaimanapun, berlaku percikan api dari sisa habuk halus arang batu yang jatuh dalam pengisar sehingga mengakibatkan kebakaran dan menyebabkan ketiga-tiga pekerja terbalut meleur," katanya dalam satu kenyataan.

Employment law to be amended for gig economy

15/12/21

THE government is in the midst of amending the Employment Act 1955 to allow e-hailing drivers to be recognised as workers, says Deputy Human Resource Minister Datuk Awang Hisham.

This includes amending Section 101C by updating the definition of employers and employees.

"The proposed amendment is a clear effort by the government to clarify employer-employee relations in the gig economy," he told Datuk Ahmad Juhari Yaacob (BN) Mambong during Question Time in the Dewan Rakyat yesterday.

Ahmad Juhari had asked the government to reveal the steps that are taken to address the problem of a lack of social security for e-hailing riders.

Awang said these workers were not covered under any labour laws, such as the Employment Act 1955.

He said the ministry was holding engagement sessions with service providers and main industry players to discuss the issues and the interests and welfare of those involved in the gig economy.

"The government would conduct a study to identify the needs and interests of workers in the gig economy to ensure they are given the necessary protection, especially during peak hours."

Among the issues, he said the "one mile, one trip" model used by the high-velocity workers led to the memorandum of understanding (MOU) on the recruitment of Indonesian domestic workers (DD) is expected to be finalised by early next year after discussions were delayed.

He said Malaysia and Indonesia held an official meeting to discuss the MOU on the recruitment of Indonesian domestic workers in Malaysia.

"Perhaps it will be finalised this year or early next year," Teresa Kok (PH-Selangor) said.

Awang said the protocol to amend the MOU had expired in 2019. A series of discussions was held between 2018 and 2020 but still could not finalise a new MOU.

Awang said the discussions were delayed a few months because of the issues, he said the "one mile, one trip" model used by the high-velocity workers led to the memorandum of understanding (MOU) on the recruitment of Indonesian domestic workers (DD) is expected to be finalised by early next year after discussions were delayed.

Dua pegawai bomba, seorang anggota kilang cedera akibat letupan kebakara

15/12/21

JOHOR BAHRU - Seorang pegawai bomba dan seorang anggota kilang cedera akibat letupan kebakara di sebuah kilang memproses habuk kayu di Segamat pada Sabtu.

Kita (bomba) menerima panggilan kecemasan kebakaran pada 5.15 pagi, kemudiannya bomba tiba di lokasi kejadian. Dua pegawai bomba dan seorang anggota kilang cedera akibat letupan kebakara di sebuah kilang memproses habuk kayu di Segamat pada Sabtu.

Prioritise mental health, teachers told

15/12/21

THE mental health of students must be prioritised, Urging teachers to pay attention to the mental wellness of their charges, Deputy Education Minister Datuk Dr Mah Hang Soon (pic) said during the 2021 Malaysian Primary and Secondary School Teachers' Teaching and Counselling Workshop held from Dec 11 to 13.

The three-day workshop in Genting Highlands addressed the need for effective teaching and learning through discussions and sharing sessions. Teachers were exposed to skills and strategies, and ways to guide their students' learning.

The workshop organised by the Malaysian Chinese Secondary School Teachers' Association (MCSSTA) and the National Education Council (NEC) was held at the Sheraton Genting Highlands Resort.

The co-organisers included the Malaysian Chinese Secondary School Teachers' Association (MCSSTA), the National Education Council (NEC), the Ministry of Education (MOE), and the National Council for Educational Research and Training (NCERT).

The workshop was attended by over 1,000 teachers from various states and territories.

The workshop was held in Genting Highlands, Pahang.

Keselamatan kanak-kanak di jalan raya langgugjawab bersama

15/12/21

SHAH ALAM - Keselamatan kanak-kanak di atas jalan raya merupakan tanggungjawab bersama ibu bapa serta semua pengguna jalan raya.

Pengarah Eksekutif Keselamatan, Jabatan Keselamatan dan Kesihatan Pekerjaan (JKKP) Perak, Supian Alias berkata, keselamatan kanak-kanak di jalan raya adalah tanggungjawab bersama ibu bapa dan semua pengguna jalan raya.

"Kita tidak boleh sama sekali membiarkan kanak-kanak bermain-main di atas jalan raya," katanya.

Notis larangan kerja penyelenggaraan di taman tema

15/12/21

IPoh: Jabatan Keselamatan dan Kesihatan Pekerjaan (JKKP) Perak menerbitkan notis larangan menuruskan penyelenggaraan di satu bahagian di taman tema air popular di sini selepas seorang juruteknik maut ketika selenggara lampu limpa berhampiran satu kawasan kolam mandi di taman tema air berkenaan.

Pengarah JKKP Supian Alias berkata, siasatan pihaknya mendapati kemalangan yang berlaku kira-kira jam 12.45 tengah hari itu disebabkan oleh kecacatan pada sistem kerja keselamatan dan kesihatan.

"Empat kes kemalangan maut ini berlaku di tempat kerja itu ada antara lain pekerja di sebuah kilang dan dua pegawai keselamatan yang terkena tarikan elektrik," katanya.

Bekas ketua ber-tanggungjawab kepada kakitangan dan kakitangan elektrik, akan mengambil tindakan perundangan ke atas pihak yang bertanggungjawab sekiranya tidak dapat dipertanggungjawabkan keselamatan dan Kesihatan Pekerjaan 1994 - Bernama

Navigating noisy workplaces

565 kematian kemalangan elektrik dicatat

15/12/21

Pendang: Gagal selenggara atau pemasangan tidak sempurna menjadi penyebab utama kes kemalangan elektrik yang menamatkan 565 maut dari pada 1,197 kes yang direkodkan di seluruh negara sejak 2020 hingga kini.

Pengarah Jabatan Pengangkutan dan Operasi Kawasan Suruhanjaya Tenaga (ST), Mohd Elmi Anas berkata, hasil analisis kes kemalangan elektrik yang didaftarkan ST mendapati 35.7 peratus disebabkan faktor berkenaan.

Katanya, 31 peratus kes dikatali oleh kecacatan pada sistem tenaga elektrik yang tidak mematuhi prosedur kerja selamat.

"Contohnya di Pulau Pinang dan Kedah terdapat empat kes maut membabitkan kemalangan elektrik tahun ini, sekali yang meningkat berbanding tahun lalu hanya satu kes."
