A COLLECTIVE CHALLENGE

WORLD DAY FOR SAFETY AND HEALTH AT WORK

28 APRIL 2016

International
Labour
Organization

HISTORY OF 28 APRIL

The annual World Day for Safety and Health at Work on 28 April promotes the prevention of occupational accidents and diseases globally. It is an awareness-raising campaign intended to focus international attention on the magnitude of the problem and on how promoting and creating a safety and health culture can help reduce the number of work-related deaths and injuries.

The ILO celebrates the World Day for Safety and Health at Work on the 28 April to promote the prevention of occupational accidents and diseases globally. It is an awareness-raising campaign intended to focus international attention on emerging trends in the field of occupational safety and health and on the magnitude of work-related injuries, diseases and fatalities worldwide.

With the celebration of the World Day for Safety and Health at Work, the ILO promotes the creation of a global preventative safety and health culture involving ILO constituents and all key stakeholders in this field. In many parts of the world, national authorities, trade unions, employers' organizations and safety and health practitioners organize activities to celebrate this date. We

invite you to join us in celebrating this significant day and share with us the activities you organize.

The 28 April is also the International Commemoration Day for Dead and Injured Workers organized worldwide by the trade union movement since 1996. Its purpose is to honour the memory of victims of occupational accidents and diseases by organizing worldwide mobilizations and awareness campaigns on this date.

In 2003, the ILO became involved in the April 28 campaign upon request from the trade union movement. While we honour injured and fallen workers, we appreciate and celebrate that these injuries and fatalities can be prevented and reduced, recognizing it as both a

day for commemoration and celebration. Since 2003, the ILO observes the World Day on Safety and Health at Work on April 28 capitalizing on its traditional strengths of tripartism and social dialogue.

28 April is seen as a day to raise international awareness on occupational safety and health among trade unions, employers' organizations and government representatives alike. The ILO acknowledges the shared responsibility of key stakeholders and encourages them to promote a preventive safety and health culture to fulfill their obligations and responsibilities for preventing deaths, injuries and diseases in the workplace, allowing workers to return safely to their homes at the end of the working day.

WORLD DAY FOR SAFETY AND HEALTH AT WORK 2016

"Workplace Stress: a collective challenge"

Today, many workers are facing greater pressure to meet the demands of modern working life. Psychosocial risks such as increased competition, higher expectations on performance and longer working hours are contributing to the workplace becoming an ever more stressful environment. With the pace of work dictated by instant communications and high levels of global competition, the lines separating work from life are becoming more and more difficult to identify. In addition, due to the significant changes labour relations and the current economic recession, workers are experiencing organizational changes and restructuring, reduced work opportunities, increasing precarious

work , the fear of losing their jobs, massive layoffs and unemployment and decreased financial stability, with serious consequences to their mental health and well-being.

In recent years, there has been growing attention to the impact of psychosocial risks and work-related stress among researchers, practitioners and policymakers. Work-related stress is now generally acknowledged as global issue affecting all countries, all professions and all workers both in developed and developing countries. In this complex context, the workplace is at the same time an important source of psychosocial risks and the ideal venue to address them in order to protect the health and well-being of workers.

ANJURAN BERSAMA

KEJOHANAN BOLING NIOSH 2016

Pada 2 April 2016, telah berlangsung acara NIOSH Bowling Championship 2016. Acara tahunan ini dianjurkan oleh Kelab Kebajikan dan Sukan Institut (KKSI) dan Puspanita NIOSH yang disertai oleh kakitangan NIOSH. Bertempat di Ampang Superbowl@ Bangi Gateway Bandar Baru Bangi, Selangor di mana 30 penyertaan dipertandingkan dengan tema ‘Nothing But Strike!! Strike!!! Strike!!’. Piala pusingan turut dipertandingkan dan hadiah-hadiah turut menanti para pemenang.

Kategori yang dipertandingkan adalah Berkumpulan, Perseorangan dan Kumpulan Paling Ceria. Pendaftaran peserta bermula 9.30 pagi, sarapan pagi, doa dan ucapan daripada Presiden KKSI. Sebelum pertandingan bermula, para peserta diberi latihan senaman regangan bagi meningkatkan stamina para peserta. Tepat jam 10.40 pagi telah bermula acara yang ditunggu-tunggu. Pertandingan bermula dengan begitu meriah sekali. Turut memeriah acara pada pagi itu Tuan Pengarah NIOSH Tuan Haji Zahrim Osman. Semua pemain menunjukkan bakat masing-masing pada hari tersebut dan pemenang-pemenangnya adalah;

Kategori Berkumpulan dimenangi oleh Kumpulan Ultras Malaya
Jatuhan pin : 1654

Ahli:

1. Musfaarfana Nasirun
2. Mohd Zaki Mohd Zain
3. Hairul Azam Makhzan
4. Noraini Suberi

Kategori Individu Lelaki dimenangi oleh En. Mohd Zam Azan Abdul Rahim (suami Pn. Siti Nurani Hassan-Bahagian OHD)
Jatuhan pin : 509

Kategori Individu Perempuan dimenangi oleh Pn. Yusliana Idris (Bahagian FNPD)
Jatuhan pin : 445

Kategori Kumpulan Paling Ceria
dimenangi oleh Kumpulan Kite-Kite Jer!
Jatuhan pin : 1504

1. Ernie Sazlien Baharudin
2. Siti Saydatul Ema Painan
3. Amer Farieq
4. M Athzezul

Syabas diucapkan kepada pemenang-pemenang NIOSH Bowling Championship 2016.

Program Bual Bicara Sempena Sambutan World OSH Day 2016 di Saluran Traxx FM

NIOSH telah diberi peluang oleh Unit Komunikasi Korporat, Kementerian Sumber Manusia untuk mempromosikan Aktiviti dan Perkhidmatan NIOSH melalui Program Bual Bicara di Saluran Traxx FM bersempena dengan Sambutan Hari Pekerja 2016 pada jam 5.15 - 6.00 petang 27 April 2016.

Sambutan Hari Keselamatan dan Kesihatan Pekerjaan Sedunia atau lebih dikenali sebagai World OSH Day disambut pada tanggal 28 April setiap tahun. Tahun ini, tema World OSH Day adalah Workplace Stress : A collective challenge. Bagi menyambut World OSH Day pada tahun ini, NIOSH akan menganjurkan Seminar Kesedaran Umum bertajuk Workplace Stress : A Collective Challenge pada 17 Mei 2016 bertempat di Dewan Rafflesia, Menara NIOSH, Bandar Baru Bangi berserta aktiviti Pameran.

Dalam Program Bual Bicara di saluran Traxx FM di 100.1 MHz itu, NIOSH diwakili oleh En Fadzil Osman, Pengurus Besar, Jabatan Perundingan, Penyelidikan & Pembangunan NIOSH diiringi oleh En Khairunnizam Mustapa, Pengurus Kanan, Jabatan Pendidikan dan Latihan & Pejabat Wilayah NIOSH.

Jari budak dua tahun tersepit eskalator

Seremban: Seorang kanak-kanak perempuan berusia dua tahun, melalui pengalaman menyakitkan selama 10 minit apabila jari manis tangan kirinya tersebut pada eskalator di sebuah kompleks beli belah di sini, semalam.

Dalam kejadian kira-kira jam 3.40 petang itu, mangsa bersama datuk dan neneknya dari sebuah taman perumahan di sini, pergi ke kompleks itu untuk membeli-belah.

Kanak-kanak itu dikatakan pergi ke tempat lain di situ tanpa pengetahuan datuk dan neneknya menyebabkan pasangan berkenaan segera menerarinya.

Mereka kemudian terampas orang ramai berkerumun di eskalator berhampiran dan terkejut apabila mendapati kanak-kanak yang jarinya tersebut pada eskalator di situ adalah cucu mereka.

Ketua Operasi Jabatan Pertahanan Awam Malaysia (JPAM), Koperal Mohd Rafie Mohd Nor, berkata pihaknya menerima panggilan kecemasan pada jam 4 petang, lalu bergeres ke tempat kejadian untuk memberi bantuan.

"Sebaik tiba, kami dapat jari mangsa berjaya dikeluarkan oleh orang awam. Jarinya yang cedera dibalut dan kami segera menghantarkannya ke Hospital Tuanku Jaafar (HTJ) di sini untuk rawatan lanjut," katanya ketika dihubungi semalam.

Kemalangan ulang-alik ke tempat kerja meningkat

KUALA LUMPUR 14 April - Jumlah kemalangan dalam perjalanan pergi atau pulang dari tempat kerja pada tahun lalu mencatatkan sebanyak 28,579 kes iaitu peningkatan sebanyak 8.8 peratus atau 2,323 kes berbanding 2012.

Pengerusi Institut Keselamatan dan Kesihatan Pekerjaan Negara (NIOSH), Tan Sri Lee Lam Thye berkata, dalam tempoh tersebut juga, kemalangan maut semasa berulang-alik ke tempat kerja menunjukkan peningkatan sebanyak tujuh peratus apabila 691 kes dicatatkan berbanding 646 kes pada 2012.

Katanya, dianggarkan kira-kira 70 peratus kemalangan jalan raya yang melibatkan pekerja adalah dalam kalangan penunggang motosikal.

"Secara purata dianggarkan dua daripada tiga kes kemalangan yang berlaku setiap hari di negara ini, melibatkan perjalanan pergi atau balik dari tempat kerja.

"Berdasarkan kajian yang dijalankan Pertubuhan Keselamatan Sosial (Perkeso), kebanyakannya kemalangan yang melibatkan pekerja selalunya berlaku pada waktu pagi apabila mereka dalam perjalanan ke tempat kerja. Kemalangan selalunya terjadi dalam lingkungan lima kilometer dari tempat kerja mereka," katanya dalam kenyataan di sini hari ini.

Mengulas lanjut, Lam Thye memberitahu, setiap tahun tuntutan bayaran pampasan Perkeso se-

Berdasarkan kajian yang dijalankan Pertubuhan Keselamatan Sosial (Perkeso), kebanyakannya kemalangan yang melibatkan pekerja selalunya berlaku pada waktu pagi apabila mereka dalam perjalanan ke tempat kerja.

Kata Lam Thye, anggaran tuntutan pampasan Perkeso untuk kemalangan dalam perjalanan pergi atau pulang dari tempat kerja meningkat daripada RM667 juta pada tahun 2012 kepada RM867 juta pada 2015.

"Bayaran pampasan Perkeso kepada pekerja yang ditimpakan kemalangan semasa berulang-alik ke tempat kerja adalah satu pertiga daripada jumlah bayaran pampasan kepada pekerja yang terlibat dalam semua kemalangan berlakunya pekerjaan," jelas beliau.

Berikut itu, Lam Thye berkata, NIOSH menyediakan kursus menunggang motosikal secara berhemah kepada para pekerja dan perbincangan telah diadakan

dengan Ketua Eksekutif Perkeso, Datuk Dr. Mohammed Azman Aziz untuk menganjurkan lebih banyak kursus tersebut untuk syarikat-syarikat di negara ini.

"Jadi, saya menyeru para majikan supaya tampil memberi kerjasama dengan NIOSH dalam pengajaran kursus ini. Kami menyediakan kursus tersebut secara teori dan praktikal," ujarnya.

NIOSH: Promote mental healthcare at the workplace

KUALA LUMPUR: Employers should show more initiatives to promote mental healthcare at the workplace.

National Institute of Occupational Safety and Health chairman Tan Sri Lee Lam Thye said neglect of mental health and psychosocial factors at the workplace was detrimental to the workers and directly affected

productivity, efficiency and output of any enterprise.

"No workplace is immune to mental disorders and their impact in psychological, social and economic terms is high," said Lee.

"Employee performance, frequent illness, absenteeism, accidents and staff turnover are all affected by employees' mental health status."

Lee was giving the keynote speech at the 8th Malaysian Conference on Healthy Ageing – Making Mental Health a Priority for Healthy Ageing at a hotel here yesterday.

He said the 2011 National Health and Morbidity Survey showed that 12% of the adult population suffered from some form of mental

illness (anxiety, stress, psychosis, depression and schizophrenia).

According to the 2015 survey, 29.2% (4.2 million) of adults 16 years and above were suspected of having mental health problems.

Lee said mental health was not just about mental illness, but it was a feeling of well-being, the ability to cope with challenges, to maintain a

harmonious relationship with others and to have a positive attitude towards one's self.

He pointed out that as workers spent one-third of their day in the office, workplace issues were one of the contributors of depression.

"Work stress should not be taken lightly as it could affect employee's physical and emotional health."

Crane collapse at construction site kills 18

BEIJING: Authorities in southern China say 18 people have been killed and 18 others hospitalised following the collapse of a massive overhead crane at a construction site amid a fierce windstorm.

The 80-tonne crane fell directly onto two-storey temporary buildings in the city of Dongguan, on Wednesday morning. Of those in hospital, four were listed in serious but stable condition.

Spokesman for the rescue effort Luo Bin was quoted by state media as saying yesterday that 139 people were in the buildings at the time of the accident, and 88 managed to escape on their own.

An investigation had been opened into the accident and 20 million yuan (RM11.7mil) made available by the companies concerned for the recovery and clean up. — AP

JKKP keluar garis panduan bantu operasi perikanan

Kuala Lumpur: Jabatan Keselamatan dan Kesihatan Pekerjaan (JKKP) sudah mengeluarkan Garis Panduan Mengenai Keshopan dan Keselamatan Pekerjaan bagi Operasi Perikanan dan Akutakultur 2013 untuk membantu operasi dalam sektor perikanan.

Ketua Pengarah, JKPP, Datuk Mohd Mursi berkata garis panduan itu menyatakan peraturan yang perlu dipatuhi pihak terbabit dalam industri perikanan bagi memastikan keselamatan dan kesihatan.

Katanya, mengikut kepada garis panduan itu, konteks pusat penyimpanan ikan dianggap sebagai ruang terkutang.

Pada masa sama, katanya, JKPP juga mengeluarkan risalah Batu Gas Hidrogen Sulfida (H2S) di Jeti Pendataran dan Bot Menungkap Ikan pada tahun 2009 sebagai panduan tambahan kepada pekerja mengenai pasti bahaya yang mungkin dilanda ketika bekerja di jeti pendataran dan bot meskipun ikan dalam sebuah kapal di Jeti Sepanggar, Sabah, Isnin lalu.

"Majikan dan pekerja industri perikanan harus melaksanakan tanggungjawab masing-masing

Step up food safety checks

MEDIA reports on cases of food poisoning in the country, especially involving students, seem to be on the rise lately. The National Institute for Occupational Safety and Health (NIOSH) would like to urge everyone involved, including the relevant authorities, school administrators, owners of eateries, caterers, food handlers and parents to take appropriate steps to prevent food contamination from becoming a serious health threat.

We do not want to see a repeat of the recent food poisoning case in Batu Gajah, Perak which claimed the lives of several others needing hospital care.

Less than a month after the incident in Batu Gajah, where victims consumed pesticide-contaminated food bought at a stall there, another food poisoning episode took place at Sekolah Menengah Sains Tapah in Perak. In this incident, 43 students and a teacher fell sick after eating roti jala with chicken curry at the canteen. It was later found that the chicken used in the curry was contaminated by salmonella bacteria.

It was the second case of food poisoning reported in the school in

the past three years. In October 2013, more than 270 students suffered food poisoning from a chicken dish served at the school's dining hall.

On the heels of the case at the boarding school came another in Sekolah Kehangsaan Tiong in Kota Baru, Kelantan where 29 pupils suffered food poisoning after eating spicy chicken in the school canteen.

This has been closed for two weeks to facilitate an investigation and the operator risks losing his contract if the Health Department's investigation finds him guilty.

Students must be protected from not only accidents and crime within the school compound but they should also have access to safe and hygienic food in the canteen or dining hall.

As for food outlets and restaurants, the owners must ensure that people whom they hire must be qualified and practise hygiene and safe food preparation and handling.

In the wake of the recent food poisoning incidents, there should be close monitoring on food preparation and handling as well as frequent checks on eateries and school canteens throughout the country.

In Malaysia, roadside food stalls are common and frequented by the public who seem to be unsure whether these stall owners have certificates from the Health Ministry or permits from local authorities.

Furthermore, many restaurants, cafes and outlets at food courts today hire foreigners to cook and prepare food.

I believe that random checks and on-the-spot controls issued by the ministry and local authorities will help improve the cleanliness of the eateries and ensure safe and hygienic food preparation and handling.

The Health Ministry has to conduct more frequent inspections at all eateries as compared to the current practice of once a year, or when there are food poisoning cases or customer complaints.

Local authorities also have to step up their inspection at eateries in their jurisdiction and focus on the roadside stalls to weed out the unlicensed ones.

At the same time, the authorities should recall unsafe or contaminated food in the wet markets, mini markets, supermarkets or hypermarkets and impose severe punishment on wrongdoers.

Under the law, operators of eateries are not supposed to employ food handlers to work at their premises unless these people have undergone training and have been medically examined and vaccinated by registered medical practitioners. Failing to do so, the eatery owners or operators are liable to a maximum fine of RM10,000 and a jail sentence not exceeding two years.

A similar penalty awaits any food handler in any eatery who fails to undergo training or obtain a Food Handler Training certificate.

The Food Act 1983 is a very comprehensive law providing protection to the public against health hazards and addressing wrongdoings in the preparation and sale of food. The Act covers registration of food premises; conduct and maintenance of food premises; food handler; special requirements in handling, preparing, packing, serving, storing and selling of specific food (meat, fish,

THE STAR, MONDAY 11 APRIL 2016

ice cream and frozen confection, milk, ice and vending machine); and carriage of food.

Under the law, operators promotes the breeding of harmful pests such as cockroaches, rats and flies that can contaminate the food. This is another aspect that should not be ignored, besides cleanliness of tables and utensils, toilets and food storage facilities.

As for primary school pupils, teachers and parents have to teach them food safety and how to spot something that smells or tastes like sight, smell and taste.

School administrators or parent teacher associations have to ensure that sinks in school canteens are properly maintained and soap is provided for the students to clean their hands before and after meals.

For safe food to reach end users, the relevant authorities have to ensure that food producers and handlers have adopted safe and hygienic practices throughout the supply chain. Consumers have to be conscious of food safety and avoid dirty eateries.

TAN SRI LEE LAM THYE
Chairman, NIOSH

Syor garis panduan jaga kesihatan mental

Kuala Lumpur: Pengerusi Institut Keselamatan dan Kesihatan (NIOSH), Tan Sri Lee Lam Thye (**gambar**) menggesa kerajaan mempertimbangkan untuk memperkenalkan garis panduan dalam promosi penjagaan kesihatan mental supaya dapat digunakan oleh majikan di tempat kerja.

Beliau berkata, walaupun banyak faktor memberi kesan kepada kesihatan dan kesejahteraan mental, terdapat bukti menunjukkan persekitaran tempat kerja boleh menyumbang kepada peningkatan ini.

Katanya, garis panduan itu penting membolehkan pelaksanaan langkah asas yang perlu diterima pakaian dan dilaksanakan majikan di tempat kerja yang sesuai dengan keadaan praktikal di setiap tempat kerja.

"Tidak ada tempat kerja yang secara kualiti daripada gangguan mental dan memberi kesan tinggi dari segi psikologi, sosial serta ekonomi.

"Jadi, kesihatan mental perlu

diberi perhatian secukupnya di semua organisasi. Tempat kerja secara langsung mempengaruhi fizikal, mental, ekonomi dan kesejahteraan sosial pekerja, se lain kesan kepada keluarga, komuniti dan masyarakat," katanya pada Persidangan Kesihatan Penuaan Malaysia Ke-8, di sini, semalam.

Konsep promosi kesihatan di tempat kerja (WHP) menjadi semakin relevan di organisasi swasta dan awam yang menyediakan bantuan kejayaan masa depan dalam pasaran globalisasi hanya dicapai dengan tenaga kerja yang sinat, berkelayakan dan bermotivasi.

Seumur organisasi perlu mengambil tindakan berkaitan kerja dan risiko psikososial sebagai sebahagian daripada strategi keselamatan serta kesihatan mereka.

Lam Thye berkata, kesihatan bawang saja mengena penyakit mental, tetapi ia satu perasaan kesahajahteraan dan keupayaan mengekalkan hubungan harmoni.

Syarikat wajib sedia polisi KKP

KUALA LUMPUR 23 April — Pihak pengurusan syarikat diwajibkan untuk menyediakan Polisi Keselamatan dan Kesihatan Pekerjaan (KKP) sebagai langkah pencegahan kemalangan di tempat kerja.

Pengerusi Institut Keselamatan dan Kesihatan Pekerjaan Negara (NIOSH), Tan Sri Lee Lam Thye berkata, aspek berkewajipan perlu diutamakan sebagai satu bentuk pelaburuan dan bukannya dianggap bebanan kepada syarikat kerana ia menentukan daya maju sesebuah syarikat pertinaian.

Pengerusi Institut Keselamatan dan Kesihatan Pekerjaan Negara (NIOSH), Tan Sri Lee Lam Thye berkata, aspek berkewajipan perlu diutamakan sebagai satu bentuk pelaburuan dan bukannya dianggap bebanan kepada syarikat kerana ia menentukan daya maju sesebuah syarikat pertinaian.

Jelas beliau, pada masa sama, tuntutan tersebut adalah selari dengan peruntukan di bawah Akta Keselamatan dan Kesihatan Pekerjaan 1994 yang mewajibkan mana-mana syarikat menetapkan polisi KKP bersama visi dan misi

organisasi.

"Ramai orang mengabaikan kepentingan keselamatan dan kesihatan pekerjaan sehingga kemalangan, kecederaan atau maut berlaku dan ada se-setengah industri yang tidak mahu melabur dalam aspek itu kerana faktor kos."

"Mereka seolah-olah tidak sedar bahawa jika kemalangan atau kemalangan berlaku akibat sikap mengabaikan KKP, kos yang perlu ditanggung akan akan menjadi lebih besar sedangkan aspek

tersebut boleh memberi manfaat kepada perniagaan mereka jika ia

ditutamakan," katanya dalam satu kenyataan di sini hari ini.

Dalam pada itu, Lam Thye berkata, pihak industri terutama perusahaan kecil dan sederhana (PKS) perlu memberi komitmen tinggi untuk mengamalkan budaya kerja selamat dan melakukan lebih banyak usaha bagi mengurangkan kemalangan industri melalui amalan KKP yang baik.

Menurut beliau, dalam ekonomi global, isu-isu keselamatan dan kesihatan pekerjaan adalah antara pentuan utama kepada daya saing syarikat melalui peningkatan produktiviti dan kecekapan.
